

## Hayward Amps Limited Warranty

Hayward Amps offers a one year warranty from the date of purchase to the original purchaser against failures caused by manufacturing defect (with the exception of tubes).

Should your amp require service or warranty work, the owner will be required to ship the unit to "Hayward Amps" in a properly packed and insured manner at your own expense for repair or replacement (at our discretion). We will ship the repaired or replacement unit back to you at our expense as soon as possible.

Every effort is made to ensure that you are satisfied with your custom built amp, however because the amp is built to your specifications, it cannot be refunded. Modifications and adjustments will be made (within reason) and at your own shipping expense.

This warranty does not cover: damage by abuse, neglect, any tampering or modifications made to the amp following purchase, or normal wear and tear. Any modifications or servicing/repairs completed on a 'Hayward Amp' by any other technician(s) voids all warranty.
